REACH-Compliance Declaration

We would like to thank you for your enquiry regarding REACH. We would be happy to explain the current status of implementation within our company.

You purchase articles from our company. At present, only two requirements apply to articles. Firstly, it must be assessed whether the article is intended to release a substance that is subject to registration. We can assure you that this is not the case for the articles supplied to you.

The second requirement currently applicable to articles concerns substances of very high concern, for which there is an obligation to provide information throughout the supply chain in accordance with Article 33 of REACH. Consumers also have the right to receive this information on request within 45 days. Substances of very high concern are published on a Candidate List, the latest version of which was announced by the European Chemicals Agency (ECHA) on 17 January 2023.

We assure you that the product and its packaging do not contain any substances from the Candidate List (as at 17 January 2023) in concentrations exceeding 0.1 per cent by mass, in accordance with Article 59(1) of the REACH Regulation.

Explanatory notes on the RoHS Directive

Furthermore, our products (abrasives) are consumables/tools for production and are not electrical or electronic equipment (EEE) within the meaning of Directive 2011/65/EU (RoHS). As our abrasives do not remain in the end product and, by definition, do not fall within the scope of the RoHS Directive, we are unable to issue a formal RoHS declaration of conformity for them.

We can, however, assure you that our abrasives do not contain any of the substances regulated under RoHS (such as lead, cadmium, mercury, etc.) nor do they transfer these substances to your workpiece.

Furthermore, we can assure you that our specialists are fully aware of their responsibility for the products supplied to you and will take all necessary measures, in accordance with their duty of care, to continue supplying you with high-quality goods that comply with all REACH requirements.

Yours faithfully,

Falkenrich GmbH
